This introduction to comparative politics contains theoretical chapters that exlore the 'purpose of government'. The theoretical section is followed by 12 individual country studies.

This text was created in response to demands for a brief version of the leading comparative politics text, Almond and Powell's Comparative Politics Today. The material focuses on the world-wide process of democratisation.

The authors of this book pioneered the functional approach to comparative politics. In this text, they introduce a three-part framework of system, process and policy to help spell out how different kinds of political systems are formed, maintained and changed through cultural and structural processes. This threefold analytic structure also provides the outline for the individual country studies, enabling readers to move easily and logically from institution to institution, and from process to process, without losing the essential thred of connection and meaning. Coverage has been expanded in this edition to include Egypt, India, Nigeria and Brazil.

Comparative Politics Today is the text that helped define the discipline of comparative politics, and it continues to set the standard in examining the purpose of government and comparing the world's diverse political systems. Written by leading comparativists and area study specialists, this text begins with chapters that clarify key concepts in politics and government and show how theoretical frameworks describe and analyze the differences and the similarities among countries. The twelve country studies that follow focus on countries that are leaders within their regions and the larger world. Each country study includes the most current information and consistently applies the theoretical framework to explore broad issues like why some countries modernize more quickly or why some are more democratic. With numerous photos, figures, and tables to clarify complex political data and structures, Comparative Politics Today helps students learn about other countries, regions, and the world, and it will help them ask-and answer-fundamental questions about politics and government.

Combining thematic chapters and country cases, Comparative Politics Today: A World View sets the standard for introducing the field of comparative politics and for illustrating how to compare the world's political systems. This text begins by laying out a proven analytical framework that is accessible for students new to the field; it is then consistently implemented in twelve authoritative country cases not only to introduce students to what politics and governments are like around the world but to also understand the importance of their similarities and differences. Written by leading comparativists and area study specialists, Comparative Politics Today helps to sort through the world's complexity and to recognize patterns that lead to genuine political insight.

A thematic overview of comparative politics coupled with country studies that bring theory to life Revel(TM) Comparative Politics Today: A World View combines a comprehensive thematic overview of the discipline with in-depth country studies written by expert scholars in their respective fields.
