Completely reviews all the major structures in American English. Students practice and master using the grammar for a wider range of communicative purposes. An expanded three-CD audio program exposes students to real spoken English. Up-to-date texts focus on international topics - everything from the impact of global tourism to the American sitcom Friends. The readings stimulate class discussion and provide the rich vocabulary input that students need at this level. Two sections new to the course, "The Music of English" and "Spoken English," highlight stress and intonation patterns and focus on features of informal spoken English. "Hot words" sections present and practice essential collocations. Active analysis of grammar in "Test Your Grammar" and "Grammar Spot" activities helps students build and extend their understanding of English. The Grammar Reference in the back of the Student Book gives clear, detailed rules and examples of form and use. A writing syllabus at the back of the book provides a complete writing program for the level.

Reviews the status of immigration and its role in the American economy, proposing a six-point strategy for reforming the immigration laws to reduce the number of illegal immigrants and attract highly skilled foreign workers.

This volume brings together scientific experts in different areas that contribute to the railway track and transportation engineering challenges, evaluate the state-of-the-art, identify the shortcomings and opportunities for research and promote the interaction with the industry. In particular, scientific topics that are addressed in this volume include railway ballasted track degradation/settlement problems and stabilization/reinforcement technologies, switches and crossings and related derailments causes, train-induced vibrations and mitigation measures, operations, management and performance of ground transportation, and traffic congestion and safety procedures. The volume is based on the best contributions to the 2nd GeoMEast International Congress and Exhibition on Sustainable Civil Infrastructures, Egypt 2018 – The official international congress of the Soil-Structure Interaction Group in Egypt (SSIGE).
