Atmospheres : architectural environments, surrounding ...

Atmospheres is a poetics of architecture and a window into Zumthor's personal sources of inspiration. In nine short, illustrated chapters framed as a process of self-observation, Zumthor describes what he has on his mind as he sets about creating the atmosphere of his buildings: images of spaces and buildings that affect him are every bit as important as particular pieces of music or books that inspire him.

Atmospheres: Zumthor, Peter: 9783764374952: Amazon.com: Books

What "really constitutes an architectural atmosphere"? Peter Zumthor says, is "this singular density and mood, this feeling of presence, well-being, harmony, beauty ... under whose spell I experience what I otherwise would not experience in precisely this way." Zumthor's passion is the creation of buildings that produce this kind of effect, but how can one actually set out to achieve it?

Atmospheres: architectural environments, surrounding objects

It is a first language we learn before words - a language combined of a range of sensual and spatial experiences - we sense where we are through feeling of our own presence and moods, we sense what kind of space surround us - we sense its atmosphere. Western architecture usually develops from perspective with the building as an object to be looked at, while Chinese architecture develops from the idea that the building is something to be experienced from within.
