programs for the
on-chip
resources have
been developed

~~EXPLORING C FOR
MICROCONTROLLERS~~

C++ templates
are a useful
facility in
these
situations. When
we use C++
function

Get Free

Chapter 4

templates, only one function "signature" needs to be created. The C++ compiler will automatically generate the required functions for handling the individual data types. This makes

Get Free Chapter 4

programming much
easier - Here is
an example:
