Finished reading Brian Bennett book Explicit Leadership and really enjoyed it. It showed me quite a few things that I need and want to work on; letting people around me know they are loved and appreciated, serving others, celebrating others, using my words to build people up and not tear people down, believing who God says I am (His redeemed beloved adopted son) and living accordingly.

Explicit leaders are expected to make unilateral decisions if needed, to outline a clear vision, to be decisive on occasion. Certainly to challenge the team's status quo. But, lean leadership is also all about developing one's own abilities as implicit leaders, which means going to the Gemba , listening until it hurts (understanding doesn't mean agreeing), and supporting individuals as well as being demanding.

Does a Lean Company Need Explicit or Implicit Leadership?

There are six leadership competencies that are the building blocks to becoming an effective leader; focus on the goal, ensure a collaborative climate, build confidence, demonstrate sufficient technical know-how, set priorities, and manage performance as described When Teams Work Best by LaFasto and Larson.

Therefore, the question arises, "Does an effective team leader both merge into the ...

encouragement in the lives of everyone around you? Explicit Leadership is a book written to help you unlock your potential as a leader so that you can lead deeply from the core of your heart. Too often we are implicit leaders. We assume that others around us know we believe in them, love them and are thankful for their contribution to the team. Implicit leadership is a lid that will hold your team back from its full potential. When we make the shift to explicit leadership, we are making a shift to leave no doubt in the minds and hearts of others around us that they are doing a good job, that we believe in them and that we care for them deeply. Explicit leaders seek to lift others up each day and serve everyone around them through affirmation, encouragement and celebration. Are ready to take the explicit leadership challenge? What legacy will you leave behind you?

Every manager, executive, and leader eventually learns that there's a "dirty" side of leadership. Most leadership books and training programs gloss over the more personal aspects of management. This book is different. It opens as Ron Ward, the newly appointed director of a federal law enforcement academy, prepares to terminate a tenured employee. As he anxiously waits for the employee to walk into his office, Ron realizes he is woefully unprepared for this moment and sets out on a quest to gain the knowledge and skills necessary to confront the many issues leaders face every day. Now, he is ready to share this information with you. In this book, Ron shares the many twists and turns of growing up in the Appalachian Coal Fields and then progressing through a dynamic career in local, state, and federal

Leadership and engagement expert Mark C. Crowley shows how trading in the old business playbook for heart-led leadership strategies will create purpose-driven, dedicated employees and higher levels of performance. Revised and updated to address the needs of those managing Gen Z and millennial employees in addition to the latest global research on employee engagement. In this thoroughly revised and updated edition of his now classic book, visionary Mark C. Crowley provides the roadmap workplace leaders the world over are seeking: How to most successfully and sustainably inspire and manage other human beings in the post-pandemic era. · Nearly 50 million workers quit their jobs in the U.S. alone in 2021—a record number likely to be exceeded in 2022. · While we might imagine that an opportunity to earn greater pay is the key driver of this “Great Resignation,” research shows two-thirds of the reasons people leave jobs boil down to issues related to their engagement and overall well-being. · More specifically, people quit when they feel they aren't valued, respected, appreciated,

coached—or cared about personally—by their manager and organization. · Thanks in large part to the COVID pandemic and a global reset of what matters most to people in their lives, human beings have profoundly evolved in what they need and want in exchange for their work. · Consequently, a radical change in employee expectations demands that organizations and managers rapidly pivot by embracing leadership practices that match the moment. · The remedy to the Great Resignation is to adopt more humane ways of managing people knowing they inherently lead to infinitely greater engagement not to mention optimal employee performance. · In this new and updated version of his seminal and visionary book, Mark C. Crowley draws upon emerging medical and other scientific discoveries which prove it's the heart, not the mind, that drives human motivation and achievement. · While we've long been led to believe that human beings are essentially rational beings, new research shows that feelings and emotions far more often motivate human behavior and what people care about most and commit themselves to in their lives. · In light of this breakthrough understanding, it's become incumbent upon workplace managers to pay great attention to their employees' emotional experience at work—far greater attention than any of us ever believed necessary. · Ironically, most of us were told the heart has no place in workplace management. In fact, most of us were taught that the heart acts like Kryptonite in leadership: it inherently undermines a manager's effectiveness - and lowers performance. · What makes this book so remarkable is that it brilliantly contradicts all those traditional beliefs and proves why people naturally and

instinctively respond to managers who care about them personally and support their deep human needs. · To be absolutely clear, there's nothing soft or weak about the Lead From The Heart philosophy. Instead, it represents the future of workplace management and a roadmap to driving uncommon engagement, productivity and profitability when organizations around the world are wanting it most. · Rich with inspiring stories and illuminating research, this book proves that when you lead people with a greater balance of mind and heart, people naturally follow. And they also excel.

This book offers a comprehensive guide to the Transparency in Learning and Teaching (TILT) framework that has convincingly demonstrated that implementation increases retention and improved outcomes for all students. Its premise is simple: to make learning processes explicit and equitably accessible for all students. Transparent instruction involves faculty/student discussion about several important aspects of academic work before students undertake that work, making explicit the purpose of the work, the knowledge that will be gained and its utility in students' lives beyond college; explaining the tasks involved, the expected criteria, and providing multiple examples of real-world work application of the specific academic discipline. The simple change of making objective and methods explicit – that faculty recognize as consistent with their teaching goals – creates substantial benefits for students and demonstrably increases such predictors of college students' success as academic confidence, sense of belonging in college, self-awareness of skill development, and persistence. This guide

presents a brief history of TILT, summarizes both past and current research on its impact on learning, and describes the three-part Transparency Framework (of purposes, tasks and criteria). The three sections of the book in turn demonstrate why and how transparent instruction works suggesting strategies for instructors who wish to adopt it; describing how educational developers and teaching centers have adopted the Framework; and concluding with examples of how several institutions have used the Framework to connect the daily work of faculty with the learning goals that departments, programs and institutions aim to demonstrate.

The book provides new theoretical concepts and knowledge to existing leadership theory. Through in-depth international case studies, it develops a new leadership theory of practitioners who promote strategic knowledge creation activities to achieve business innovation and new practical insights.

Judgment and Leadership presents original thinking and addresses age-old concerns regarding the relationship between judgment and leadership. These two concepts are inseparable. Judgment guides every action that a leader takes and underlies every thought, emotion, or justification that leaders form. This volume extends the study of judgment and leadership across disciplinary and conceptual boundaries.

The key concepts every manager and aspiring leader must know—from strategy
