Statistical Investigations In the real world data sets can be large and messy. We have chosen a variety of contexts in which students can use their statistical skills to answer some interesting questions.

Statistical Investigations - NRICH

In mathematics and statistics, students explore relationships in quantities, space, and data, which help them make sense of the world around them. By building career-related activities into your curriculum area you are helping your students to develop the understandings, skills and attributes that they need to make positive career decisions throughout their lives.
