Evolution Man was first published in 1960,  
written by Roy Lewis. It is a story of a small  
tribe of cavemen slowly making progress in  
the world as they develop and learn to use  
tool, make fire and weapons. Of course, this  
probably did not happen as quickly as it  
does in the narrative, but that is all part of  
the charm of the book.

Human evolution is the lengthy process of change by which people originated from apelike ancestors. Scientific evidence shows that the physical and behavioral traits shared by all people originated from apelike ancestors and evolved over a period of approximately six million years. One of the earliest defining human traits, bipedalism -- the ability to walk on two legs -- evolved over 4 million years ago.
