comprises the

majority of

procedures

commonly

performed by

general and

vascular

surgeons. For

each procedure,

a list of common

indications is given. This list covers 95% of the situations in which a particular procedure will be used. A list of essential steps follows. These can be used to mentally rehearse the procedure before

it is performed.

The next  
heading, Note  
these technical  
variations,  
introduces a  
list that is  
intended to  
prompt the  
surgeon for  
particular  
things to note  
and dictate  
within the

template. A list of possible complications that are typically associated with that particular surgical procedure follows. Finally, a template operative dictation is

provided. Common  
opening and  
terminating  
sequences (for  
example, how to  
enter and close  
the abdomen) in  
all laparotomy
