The GTO 6-liter had a top speed of 180mph and would accelerate from 0-60mph in 4.8 seconds with a 6-speed manual transmission ... including Holden, Vauxhall and Saab were sold off. GM streamlined its ...

Reflecting the rapid advances in new materials development, this work offers up-to-date information on the properties and applications of various classes of metals, polymers, ceramics and composites. It aims to simplify the materials selection process and show how to lower materials and manufacturing costs, drawing on such sources as vendor supplied and quality control test data.

While continuing her voyage to America, Kimberly encounters not only a deaf girl who attempts to save a baby whale but also a Jewish boy who accepts Christ.

A devotional taken from Bible verses and every day life.

Numerical methods are indispensable tools in the analysis of complex fluid flows. This book focuses on computational techniques for high-speed gas flows, especially gas flows containing shocks and other steep gradients. The book decomposes complicated numerical methods into simple modular parts, showing how each part fits and how each method relates to or differs from others. The text begins with a review of gasdynamics and computational techniques. Next come basic principles of computational gasdynamics. The last two parts cover basic techniques and advanced techniques. Senior and graduate level students, especially in aerospace engineering, as well as researchers and practising engineers, will find a wealth of invaluable information on high-speed gas flows in this text.

Exploring Strategic Change is by far the most useful and relevant book available on the vital topic of change management. Written in an accessible style yet drawing on solid theoretical foundations, this latest edition includes up-to-date case examples and new insights in topical areas such as employee engagement. I would thoroughly recommend this book to anyone who wants to know more about the realities of managing change.' Professor Katie Bailey (nee Truss), University of Sussex 'It's wonderful to have a new edition of this definitive text on strategic change. Refreshed with new examples and contemporary concepts, this classic continues as the most complete and accessible resource in its domain.' Richard Whittington, Professor of Strategic Management, University of Oxford Exploring Strategic Change engages with the dynamic and complex process of developing and delivering strategic and organisational change. from the analysis of context through to the formulation and implementation of effective strategies and solutions. Change management has become a highly sought after managerial competence for senior executives and middle managers. This book is written to help both students and practising managers develop skills relevant to change management, with the focus on enabling executives to implement their strategic agenda through attention to the practice of strategic change. Using the unique and innovative framework of the change kaleidoscope, the reader will not only develop valuable insights into the practice of managing strategic change, but will also learn to appreciate the need for change approaches tailored to context. Frequent examples encourage both critical reflection and application of theory. A focus on the delivery of change, as well as its design, enables students to supplement their skills in analysis with judgement, translation and implementation skills. This fourth edition of Exploring Strategic Change provides A wide range of short illustrations from both the private and public sectors. More attention to the concept of the change path as a critical design choice. More coverage of leadership, change agency skills and enabling conditions for change. An emphasis on exercising judgement and reading and rewriting the context as key change competences. Two new long case studies to explore the complexity of managing change. Exploring Strategic Change is written for undergraduate and postgraduate students, practising managers and change agents on Strategy, HR and OB-related modules on the management of change. Julia Balogun is Professor of Strategic Management at the School of Management, University of Bath. Veronica Hope Hailey is Professor of Management Studies and Dean of the School of Management, University of Bath. Stefanie Gustafsson is a Lecturer and Prize Fellow in HRM at the School of Management, University of Bath.

A group of alien friends embark on a fantastic space adventure.The sights and planets are all hand drawn then rendered in adobe on computer.FUNNY,AMAZING,COLOURFUL.seeing is believing, all children of all ages will enjoy.

This book is a step-by-step guide for readers who would like to learn how to build complete enterprise search solutions, with ample real-world examples and case studies. If you are a developer, designer, or architect who would like to build enterprise search solutions for your customers or organization, but have no prior knowledge of Apache Solr/Lucene technologies, this is the book for you.

This comprehensive book covers a wide range of key topics, from space and science to history and the natural world. Crammed with amazing facts and fantastic photographs, this Junior Encyclopedia provides children with a wealth of knowledge in an accessible format, while captions, annotation and special panels supply extra information.

While at the zoo Pat the Bunny pets the animals, from a wrinkly elephant to a feathery parrot. On board pages.
